

# Artúr Friedrich

## Junior Front End Developer

### EXPERIENCE

Junior Simulation Developer  
EcoSim Business Simulations

Jun 2022 - Present, Budapest

I am creating and maintaining web pages for esteemed companies like Audi, OTP, and CLAAS, while also contributing to high-scale Business Simulation projects and collaborating with project managers, designers and fellow developers.

### EDUCATION

Computer Science Engineering  
Széchenyi István University

2020 - Present, Győr

I engaged in collaborative projects with fellow students spanning various technology stacks. These experiences not only enhanced my technical proficiency but also provided valuable insights into effective teamwork and the importance of adhering to contemporary project management standards.

### ABOUT ME

I am a tech enthusiast who enjoys learning new programming technologies and collaborating on game development with friends. In my free time, I engage in outdoor activities like hiking and cycling and follow Formula 1 racing with great interest. Additionally, I have a keen appreciation for both Italian and Japanese cuisine, reflecting my love for diverse culinary experiences.
